If you are new to the MyBiz+ self-service tool, pages 2 and 3 provide screen shots and descriptions of the information on the screens to help in familiarizing you with the tool. However, should you wish to get started right away, go directly to page 4 and start with ‘Creating a Performance Plan (Rating Official)’.

Performance Management Appraisal Procedures for Rating Officials

This section focuses on your use of the system as a rating official and details how to use the Performance Management and Appraisal system to initiate, edit, view, and approve the performance plans of employees.

At the beginning of the rating cycle (normally April 1), you or your employee initiate a new performance plan. This is done for each employee you are responsible for rating. A new performance plan will be created in the middle of the cycle if a new employee is hired.

Performance plans include a maximum of ten performance elements and related performance standards. All elements are critical. You must have a minimum of one critical performance element.

There are two approaches to creating a performance plan:

- Notify your employee that you would like him or her to create the plan; or
- Create the plan for your employee.

In either case you should communicate with your employee about which option you choose, and what you expect if your employee is to create it. This is particularly important to avoid rework if your employee creates the plan and enters data that is incorrect or not what you expect. If you ask your employee to create the plan and enter performance elements, you must ensure he or she knows the relevant organizational mission/strategic goals.

Regardless of who initiates the performance plan, it can be left as an empty shell, in which the other party enters the objectives, or the person creating it can enter initial objectives. After the performance plan has been initiated, you and your employee can enter, edit, or review performance elements as much as needed before the final transfer from the employee to you for approval.
Performance Plan: Creating the Employee Plan (Rating Official)

Follow these steps to create a performance plan for your employee.

1. On *MyPerformance Main Page* create a new performance plan by selecting ‘DoD Performance Management Appraisal Program’ from the *Choose a Plan Type* drop-down menu depicted in Figures 5 and 6.

2. Select the *Go* button to navigate to the *People in Hierarchy* page.

3. The *People in Hierarchy* page allows you to see your employees. Select the employee for whom you want to create a performance plan and select the *Create* button.
4. When a rating official creates a new performance plan, the rating official must acknowledge (using **Acknowledge** button) that he or she has read and acknowledges their role and responsibilities during the appraisal period each time before working in MyPerformance. Select the **Acknowledgment** button.

5. The **Create Performance Plan** page is displayed. Review **Setup Details** and, if needed, make required changes.

Performance Plan: Editing the Plan (Rating Official)

After the performance plan has been created by either you or your employee, it may require edits and further input from either you or your employee. The plan could be routed to you as an empty shell awaiting your input, a final document ready for your review, or a work in progress requiring edits. Your edits can include any of the following:

- Editing draft performance elements created by employee, or
- Creating new performance elements

After you have finished making edits and have finalized the performance elements, the rating official approves them. This section shows you how to edit the plan and transfer it back and forth between you and your employee to finalize it.

Follow these steps to review and edit the performance plan:

1. At the MyPerformance Main Page, select the performance plan you want to edit, make sure the Action column reflects Update, and select the Go button. You must have ownership of the performance plan to make any changes.

Figure 21 - MyPerformance Main Page
2. When a rating official updates an existing performance plan/appraisal (e.g., when the Action column on MyPerformance Main Page reflects Update), the rating official must acknowledge (using the Acknowledge button) that he or she has read and acknowledges their role and responsibilities during the appraisal period each time before working in MyPerformance.

9. Once all of the changes have been made on the employee’s plan, you can do one or more of the following:
   - Transfer performance plan to employee for their review and concurrence, or
   - Communicate with the employee the changes and receive concurrence without transferring to employee, or
   - Begin the approval process
Performance Plan: Approving the Plan (Rating Official)

After you and your employee have reviewed and concur with the performance elements and standards as written, you are ready for the performance plan approval.

During the approval process, you will document how the plan was delivered to your employee (i.e., face-to-face or telephone) and the date it was delivered.

If an employee is not available to acknowledge the plan or refuses to acknowledge the plan, you will need to document this information.

As described earlier, the typical steps in the performance plan process are as follows. The steps covered in this section are bold and italicized:

1. The employee or rating official creates the performance plan and enters draft performance elements and standards.

2. The employee and rating official edit and/or add to the performance plan content as needed. This process may involve multiple rounds of editing and transfers between the employee and rating official before the plan is finalized.

3. **The performance plan is approved by the higher level reviewer, as appropriate, or the rating official documents the higher level reviewer approval.**

4. **The rating official documents communication to employee and transfers the plan to the employee for acknowledgment.**

5. The employee reviews the performance plan and acknowledges that it was communicated to him or her by the rating official.
