

Agency Retirement Application Audit Recommendations for Common Payroll Errors

This quick reference document provides guidance on the common Payroll Office errors reported on the monthly Agency Audit with the goal to help reduce the overall error rate. High error rates result in cases requiring development, which ultimately delays the final adjudication of retirement claims.

The rapid shift from in-person to remote work due to the national COVID-19 pandemic has resulted in a notable increase in retirement package errors. We have issued several [Benefits Administration Letters \(BALs\)](#) to aid agencies in preparing retirement packages during this sudden change in operations. The below table provides valuable resources and recommendations to help agencies reduce the frequency of these common Payroll Office errors:
