The Ministry of Defense Advisor (MoDA) program trains and deploys Department of Defense civilians to serve as Advisors supporting Institutional Capacity Building initiatives within Partner Nations. Successful completion of the MoDA Strategic Advisor Course is required. The 7-week training includes advising and mentoring skills, operational readiness, history, culture, and language training. The incumbent will use their experience to assist partners in finding host nation solutions and create sustainable programs and processes within their laws and cultures.

Background:

MoDA (SDP) primary role is to advance Colombian Institutional Capacity Building (ICB) efforts in accordance with NDAA Section 332. As such, MoDA (SDP) provides institutional ministerial level advice in support of stabilization and post-conflict activities; and assists ministry in building core institutional capacity, competencies, and capabilities to manage defense related processes designed to enhance civilian oversight of security forces; promote responsive defense governance and internal controls that help build effective, transparent, and accountable defense institutions; assess organizational weaknesses and establish support development of a roadmap for addressing shortfalls; and enhance ministerial, general or joint staff, or service level core management competencies; and other functions or purposes as the Secretary considers appropriate.

The Colombian Ministry of National Defense, to include the Colombian Military and National Police, are involved in a significant transformation process as they prepare for the challenges of the future in support of security stabilization and continued implementation of the 2016 Peace Accord with the FARC. Reform efforts to date have advanced but significant challenges remain following 60 years of conflict. The election of a left of center government in 2022 has not adversely impacted the strong bilateral defense relationship with the United States. However, internal challenges in defense and security institutions that include frequent turnover in vice-ministerial level positions, and a nascent talent management program for the civilian workforce manning the majority of the technical positions within the Ministry have slowed progress.

The Colombian Ministry of Defense is organized into three vice-ministries including the Vice Minister (VMoD) for Defense and Security Policy, VMoD for Strategy and Planning, and the VMoD for Veterans Affairs and Defense Sector Engagement. Additionally, a Secretary General provides human resource, finance, contracting, and legal services to the Ministry.

Scope:

MoDA (SDP) advisory support is aligned and tailored primarily, but not exclusively, to the Vice-Ministry for Policy, including its subordinate Directorates for National Security, Public Security, Citizen Security, Human Rights and International Affairs. MoDA (SDP) also supports the Vice Ministry of Defense for Strategy and Planning to advance Ministry, General Command, and Service Headquarters capabilities-based planning and related core management competencies. Additionally, MoDA (SDP) seeks opportunities to advise VMoD for Veterans Affairs and Defense Sector Engagement to advance Section 332 objectives. In short, the MoDA (SDP) will be expected to engage across the Ministry of Defense to advance ICB objectives on behalf of Team DoD Colombia.

The SDO/DATT has primary responsibility for ensuring unity of command and effort on behalf of the Department of Defense in Colombia. MoDA (SDP) will therefore coordinate all activities in accordance with SDO/DATT priorities and guidance. MoDA (SDP) will be rated by the SDO/DATT.

Specific Tasks:
