#### Coaching and mentoring are two distinct leadership development activities:

A coach:

- Asks questions to promote selfdirected learning for clients to achieve their goals.
- Draws wisdom out of their clients.
- Challenges a client's thinking to encourage problem-solving skills.
- Requires a minimum of 60 hours of accredited coach training

COACHING

### What is coaching?

Coaching is an experiential development process which enables change and growth in the lives and work of individuals, teams, and organizations through various processes facilitated by a certified coach.

Coaching empowers clients, by asking thought-provoking questions, to go beyond their baseline of general wellbeing toward thriving. Coaching is particularly powerful for those who are going through a transition, either professionally or personally. Ultimately, the coaching experience positively impacts the DoD mission.

#### Agency-wide Benefits of Coaching

- Increased employee engagement
- Individual and team resiliency
- Talent retention
